WHO WE ARE AND THE BENEFITS THAT WE WILL BRING TO YOUR SUPPLY CHAIN.

Suresafe Protection Ltd is an Industrial Safety Wear Specialist Distributing Workwear, Hi-Vis, PPE, Site Safety Equipment, Safety Footwear and Janitorial Supplies with over 50 years of experience nationwide. We stock over a 100,000 product lines including brands like: Helly Hansen, Knipex, CAT, PUMA, Portwest and import and Trademark our own brands such as Gator wear and Matterhorn in line with our ISO9001 quality standards. We work closely with the BSIF to ensure that all of the products in our supply chain meet and surpass the appropriate standards.

We understand that the lack of PPE or incorrect selection of safety wear can have a detrimental effect on your business and that's why we offer technical support and expert advice on all of our products, your very life may depend on it one day!. The cost of safety wear is much less than that of an accident. Our team is versed in the most up to date legislation and standards that will help keep your teams safe.

We have a manufacturing capability for uniforms and corporate branding both in-house and off shore and

can produce over 10,000+ branded garments on a daily basis. Producing these items in-house gives us the ability to control our supply chain, in terms of quality consistency and speed of service giving our customers outstanding value for money.

Our commitment to our customers and the safety industry as a whole is of paramount importance, we believe in reputation, rigorous authenticity, integrity and leadership without ego as part of our core values.

IN-HOUSE BRANDING & DESIGN

Personalise your garments with our in-house corporate branding and design department. Work with our fantastic design team to get that high quality professional look for your business. Suresafe has one of the largest embroidery and heatseal facilities in the UK, which helps ensure that you receive a fast and efficient turn around. One of the major benefits of this department is that our customers feel the difference not only in turnaround and speed of service but also in cost.

SURESAFE SHOP

Why not visit our shop! Not only can you collect your order in our impressive showroom, you will meet our friendly sales team. Should you require any technical help or information, we can assure you of our best attention at all times.

TO USE HIGH QUALITY

HEARING PROTECTION

From our purpose-built facilities, our teams are capable of producing over 10,000 custom-designed garments each day. Our designers work alongside customers to design and produce bespoke workwear specific to their needs.

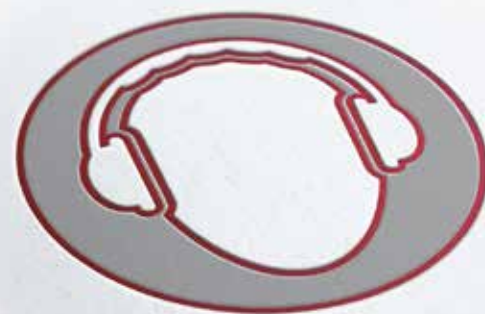

NOISE LEVELS IN THE WORKPLACE

AS AN EMPLOYER YOU ARE REQUIRED TO MAKE A RELIABLE ESTIMATE OF YOUR WORKERS DAILY NOISE EXPOSURE.

IF THE NOISE LEVELS EXCEED 85dB THEN THE WEARING OF HEARING PROTECTION IS MANDATORY.

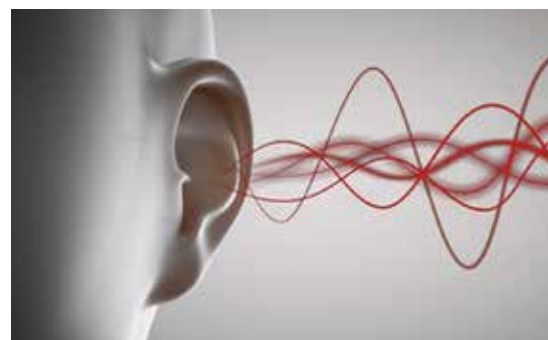

The maximum noise limit of 87dB must not be exceeded even when wearing protection. If an employee requests hearing protectors and their exposure is between the lower and upper exposure action levels then hearing protection must be provided.

For guidance on the exposure levels, review our Noise Level selection chart.

LOWER EXPOSURE LEVEL	UPPER EXPOSURE LEVEL	EXPOSURE LIMIT
<ul style="list-style-type: none"> A range of hearing protectors must be made available to workers exposed to noise. Usage is voluntary. Training provided on safe working, detecting hearing damage, risks of noise exposure and the correct use and fitting of hearing protectors. Audiometric screening should be made available to those at risk of NIHL. 	<ul style="list-style-type: none"> A range of hearing protectors must be made available to workers exposed to noise. Usage must be enforced. Noisy areas must be clearly identified with warning signs. Exposed workers should have audiometric evaluation made available. 	<ul style="list-style-type: none"> Maximum level allowed that must not be exceeded. Where exposure to noise varies markedly from day to day the weekly exposure level should be measured and used in place of daily noise exposure.

MAXIFLEX ACTIVE MAXIFLEX ACTIVE COATED GLOVES

WHAT TYPES OF HANDLING ARE THE MAXIFLEX GLOVES SUITABLE FOR?

The MaxiFlex Active Gloves offer high levels of comfort, dexterity and tactile sensitivity, making them ideal for a number of handling applications. Tasks they are well suited to include:

- | | |
|---------------------|-------------------------------------|
| Light handling | Outdoor handling |
| Heavy-duty handling | Handling rough and coarse materials |
| Precision handling | Handling smooth materials |
| Tactile handling | Handling small materials |
| Dry handling | |

4.1.3.1

WHY ARE THE MAXIFLEX GLOVES SO GOOD FOR MY SKIN?

Wearing gloves for long periods can lead to discomfort and irritation, especially in warm conditions or after demanding work sessions. With this in mind, the MaxiFlex Gloves were designed to keep hands dry, cool and comfortable. The patented nitrile they are coated with offers 360 degree breathability to prevent overheating, while a combination of aloe vera and vitamin E soothes the skin for a reduced risk of irritation.

- Flexible, resilient work gloves for light handling applications
- Delivers a 'well-being effect'
- Features aloe vera and vitamin E to ease skin irritability

MATTERHORN NORDIC

MATTERHORN PROSOFTSHELL JACKET

OUR EXCLUSIVE RANGE OF HIGH QUALITY, COMFORTABLE CLOTHING FOR PROFESSIONALS

THE MATTERHORN RANGE EXCLUSIVE TO SURESAFE

NANO DRY IS A BRAND NEW MEMBRANE, THAT THANKS TO VERY INNOVATIVE TECHNOLOGIES ENSURES EXCELLENT PROTECTION AGAINST BIG WIND, WATER REPELLENCY AND BREATHABILITY, EVEN IN THE MOST EXTREME CONDITIONS.

Softshells bridged the gap between waterproof hardshell jackets and highly breathable fleece mid-layers.

Outdoor activities involving sustained, aerobic output and often in challenging and changeable environments bore out a very real need for a protective yet breathable outer layer. Softshell features: wind resistance, water resistance and breathability.

Stretch & Freedom of Movement - the ability to move dynamically, in comfort and with little restriction is one of Softshell's key advantages.

Polar Fleece hood lining brings the durability, the texture of yarn & the softness of cotton. This gives their wearers additional warmth especially for people who don't like missing their workouts even with the colder weather.

- Material: 96% polyester, 4% Spandex
- Weight: 310 g/m2
- Breathability: 5000g/m2 24h
- Waterproofness: 8000 mm

QUALITIES & BENEFITS

Outer material: durable, moisture-repellent Softshell. 4-way stretch fabric.

Inner lining: cozy and warm fleece lining.

Zipper: Water repellent zippers.

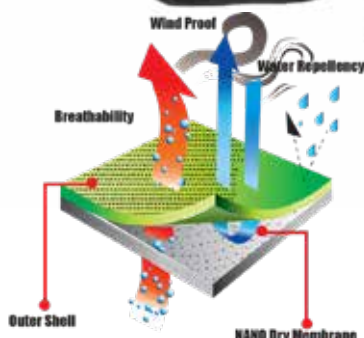

Hood: Spacious, adjustable, detachable zippered hood.

Cozy Fleece Lining.

Cuffs: Velcro adjustable sleeves.

Pockets: functional zippered pockets. Pockets with zippers. Two waist pockets, chest pockets.

Bottom: the bottom of the inner part of jacket is adjustable with laces.

T-SHIRTS & THERMALS

SURESAFE THERMAL RANGE

HOW OUR THERMAL LAYER RANGE WORKS

WE ALL KNOW THAT OUR WORK ACTIVITIES CAN AT TIMES GENERATE EXCESS HEAT AND PERSPIRATION.

EVAPORATION OF MOISTURE STEALS BODY WARMTH WHEN THE ACTIVITY LEVEL IS REDUCED AND YOU REST YOUR BODY. WHEN YOUR BODY COOLS DOWN THE POLYPROPYLENE DOESN'T ABSORB THE MOISTURE, INSTEAD, BODY PERSPIRATION IS TRANSPORTED AWAY. LEAVING YOUR BODY REMAINING DRY AND WARM.

The SureSafe Thermal Range is elastic and lightweight and we recommended it for high energy and work within a wide temperature range. The garments are suitable for all levels of activity and can be worn as an extra thermal layer for workwear in cold weather or as a technical sports garment for added comfort and enhanced performance.

SURESAFE THERMAL T-SHIRT S/S

- A traditional t-shirt cut that offers optimum warmth at all times.

FLAME RESISTANT RIS POLO SHIRT

Constructed from an inherently fire resistant yarn of 60% modacrylic, 39% cotton and 1% carbon fibre. Tested to exceed the required EN Standards, the Modaflame Knit range is strong, durable and highly innovation.

This fabric has the ability to withstand heat and flame and protect against the danger caused by static electricity and flame. These inherent flame resistant properties will not diminish with repeated washing.

Flame resistant Polo Shirts. Premium FR reflective tape. Ribbed cuffs for warmth and comfort. 50+ UPF rated fabric to block 98% of UV rays. Anti-static. Retains shape wear after wear. Machine washable 40°C. Conforms to: EN ISO 11612; EN 1149; EN ISO 20471; IEC 61482; 60/RT 3279
